

HP 200 G2i 14 inch Notebook PC (DU1H3AT)

Overview

Truly flexible tech for your growing business

The HP 200 G2i 14-inch PC delivers the performance without disrupting your IT ecosystem or your budget. Powered by the latest Intel® Core™ processors[2], this compact device fits right into your infrastructure with business-grade security, flexible configurations, and impressive visuals that keep hybrid teams productive and engaged.

An upgraded experience in cost-conscious devices

Delivering enterprise-grade user experiences, durability and security in an accessible, cost-optimized device for growing businesses.

Security you can trust in a durable design

The HP 200 G2i delivers trusted security features like the optional fingerprint reader[6] that protect data and simplify access for businesses.

Be seen and heard with clarity

Effectively collaborate with an integrated camera and AI-based noise reduction with dual-array mics.

Designed with purpose

Built with at least 80% recycled metal in the keyboard.[8]

Features

HP recommends Windows 11 Pro for business

Work anywhere without compromising on performance with Windows 11 and HP collaboration, security, and connectivity technology. Summarize and rewrite content, get relevant content recommendations, and stay organized with Microsoft Copilot.^[1]

Intel® multi-core processor

Configure your HP 200 G2i CPU for the perfect combination of power, snappy performance, and value. Choose from available Intel® Core™ processors to handle multiple work tasks smoothly and reliably with multiple processing cores.^[3]

Fast and efficient wireless LAN

The portability of your PC and the reliability of a fast connection determines where you can work. Get a fast and reliable connection in dense wireless environments with gigabit-speed Wi-Fi 6.^[4]

Be your best virtual self

Sometimes in life, only a face-to-face conversation will do. Thanks to the HP HD camera with wide dynamic range (WDR), you always come off looking your best during virtual conferences in bright and low light conditions.

Protection for minor spills

Help protect sensitive electronics and key components from minor spills with the spill-resistant keyboard.

Crisp and clear collaboration

Suppress background noise and prevent interruptions for effective online calls and meetings with HP AI Noise Reduction, which improves collaboration by applying industry-leading, noise-filtering technology to all inbound and outbound audio.^[5]

[2] Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.

[6] Optional feature that must be configured at the time of purchase.

[8] Recycled materials is expressed as a percentage of the total recycled plastic and metal over the total weight of the product.

[1] Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 11 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.windows.com>. Microsoft Copilot requires Windows 11. Some features require an NPU. Timing and availability will be dependent on Microsoft and varies by market and device. Requires Microsoft account to log in. Where Copilot is not available, the Copilot key will lead to the Bing search engine. See <http://aka.ms/WindowsAIFeatures>.

[3] Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software

configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance. Optional feature that must be configured at the time of purchase.

[4] Wireless access point and internet service required and sold separately. Availability of public wireless access points limited. Wi-Fi 6 is backwards compatible with prior 802.11 specs. The specifications for Wi-Fi 6 (802.11ax) are draft and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the PC to communicate with other 802.11ax devices. Wi-Fi® supporting gigabit speeds is achievable with Wi-Fi 6 (802.11ax) when transferring files between two devices connected to the same router. Requires a wireless router, sold separately, that supports 160MHz channels.

[5] Requires HP app and Windows OS.
