

# HP 200 G2Ri 16 inch Notebook AI PC (DU1H9AT)

## Overview

### **AI-ready power in a flexible device for business essentials**

The HP 200 G2Ri 16-inch Notebook AI PC delivers AI-ready performance in a cost-optimized design that doesn't strain your IT ecosystem. With Intel® Core™ processors[2] and up to 18 TOPS NPU[3], enjoy smooth video calls and accelerate AI workloads across a big screen, all fortified with hardware security and durability fit for businesses and classrooms.

### **AI-ready performance in a cost-conscious device**

AI-ready processing[3], security and flexible configurations packed into a durable, cost-optimized device for hybrid professionals and educators.

### **Built-in security for reliable data protection**

The HP 200 G2Ri is protected through hardware-enforced security features, helping protect data and simplify access.

### **Bring clarity and confidence to every conversation**

Drive clear and crisp collaborations with an integrated camera, AI-based noise reduction, and dual built-in mics.

### **Designed with purpose**

Built with at least 80% recycled metal in the keyboard.[4]

## Features

### HP recommends Windows 11 Pro for business

Work anywhere without compromising on performance with Windows 11 and HP collaboration, security, and connectivity technology. Summarize and rewrite content, get relevant content recommendations, and stay organized with Microsoft Copilot.<sup>[1]</sup>

### Fast and efficient wireless LAN

The portability of your PC and the reliability of a fast connection determines where you can work. Get a fast and reliable connection in dense wireless environments with gigabit-speed Wi-Fi 6.<sup>[5]</sup>

### Protection for minor spills

Help protect sensitive electronics and key components from minor spills with the spill-resistant keyboard.

### Crisp and clear collaboration

Suppress background noise and prevent interruptions for effective online calls and meetings with HP AI Noise Reduction, which improves collaboration by applying industry-leading, noise-filtering technology to all inbound and outbound audio.<sup>[6]</sup>

### Fast and reliable image updates

Easily push image updates to your PC fleet and support high-speed data transmission with Ethernet speeds ranging from 10 Mbps to 10 Gbps and beyond with a commonly used RJ-45 port. No adapter needed.

---

*[2] Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.*

*[3] Features and software that require an NPU may require software purchase, subscription or enablement by a software or platform provider, and third-party software may have specific configuration or compatibility requirements. Performance varies by use, configuration, and other factors.*

*[4] Recycled materials is expressed as a percentage of the total recycled plastic and metal over the total weight of the product.*

*[1] Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 11 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.windows.com>. Microsoft Copilot requires Windows 11. Some features require an NPU. Timing and availability will be dependent on Microsoft and varies by market and device. Requires Microsoft account to log in. Where Copilot is not available, the Copilot key will lead to the Bing search engine. See <http://aka.ms/WindowsAIFeatures>.*

*[5] Wireless access point and internet service required and sold separately. Availability of public wireless access points limited. Wi-Fi 6 is backwards compatible with prior 802.11 specs. The specifications for Wi-Fi 6 (802.11ax) are draft and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the PC to communicate with other 802.11ax devices. Wi-Fi® supporting gigabit speeds is achievable with Wi-Fi 6 (802.11ax) when transferring files between two devices connected to the same router. Requires a wireless router, sold separately, that supports 160MHz channels.*

*[6] Requires HP app and Windows OS.*

[1] Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows is automatically updated and enabled. High speed internet and Microsoft account required. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.windows.com>.

[6] Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.

[7] Intel® Turbo Boost performance varies depending on hardware, software and overall system configuration. See <http://www.intel.com/technology/turboboost/> for more information.

[12] Optional feature that must be configured at the time of purchase.

[13] Resolutions are dependent upon monitor capability, and resolution and color depth settings.

*[14] All specifications represent the typical specifications provided by HP's component manufacturers; actual performance may vary either higher or lower.*

*[18] Availability may vary by country.*
